At Spacetek, we are proud to be a leading architectural firm based in Kenya, with a growing portfolio of successful projects both locally and internationally. Our work spans a wide range of sectors, showcasing our versatility and deep understanding of different architectural demands across various environments.

Our approach is firmly rooted in a customer-centric philosophy. Every project begins with listening—understanding our clients' unique needs, visions, and constraints. From there, we tailor our designs to not only meet expectations but exceed them, ensuring each space we create is both beautiful and functional.

We maintain a strong balance between aesthetics and practicality, believing that buildings should not only look stunning but also serve the people who use them efficiently and comfortably. To achieve this, we use the latest architectural tools and technologies, ensuring precision, innovation, and sustainability in every project.

Mission & Vission

Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed diam nonummy nibh euismod tincidunt ut laoreet dolore magna aliquam erat volutpat. Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed diam nonummy nibh euismod tincidunt ut laoreet dolore magna aliquam erat volutpat. Ut wisi enim ad minim veniam, quis nostrud exerci tation ullamcorper suscipit lobortis nisl ut aliquip ex ea commodo consequat.

Aim

To work on projects with a modern and functional style, in harmony with the environment.

To provide construction solutions during execution of projects in an effective and efficient way.

To ensure proper work execution from the start to the completion of a project.

Our Services

Architecture

We maintain a strong balance between aesthetics and practicality, believing that buildings should not only look stunning but also serve the people who use them efficiently and comfortably.

Urban Design

With every structure we design, we strive to leave a lasting positive impact—on communities, on environments, and on the future.

Project Management

Big or small, we deliver. With years of experience on both local and international projects you are rest assured that our pool of talented staff is ready to take the dirty work out of your hands and deliver beyond expectation.

Interior design

We make your spaces functional and aesthetically pleasing. We bring to reality our clients dreams about the outlook of their spaces with utter most professionalism and user satisfaction.

Graphic design

Whether print or electronic we have it all. Our compelling design artworks are among the best in the market and this complements our services very well.

Special Capabilities

Project Management

Our architectural designers are highly skilled and experienced, allowing schemes to be conceptualised in dynamic, yet legible presentations. The design process can therefore develop swiftly with the precise method of achieving objectives and testing the solutions comprehensively. SPACETEK have done a substantial amount of projects abroad and have skills in achieving the project requirements set. The design architects are backed up by an advanced computer aided drawing office capable of detailed 3D analysis and presentation.

Systems

SPACETEK have developed advanced systems for co-ordination of the projects across all stages of the architects service. This ensures that client presentations, design reviews, Technical Documentation, Tendering and Contract Administration are managed to the highest quality standards.

SPACETEK also uses REVIT, the leading Building Information Moelling (BIM) software available allowing us to develop and document a building in a 3 dimensional environment. Any changes are immediately co-ordinated through the entire documentation package. It also gives us unprecedented control over the coordination of structure and services when working with consultants using the same platform. Lumion is used as an architectural visualization tool

which allows us to build a 3D environment and create images of each project. Furthermore impressive video presentations and live walkthroughs are created. Together with Tenebris Lab Director, Gerard Slee, SPACETEK developed LUX Walker, a software enabling designers and clients to experience their designs in virtual reality. It's a workflow tool that renders a realistic, true-to-life scale representation of a 3D model that clients can easily interact with.

Technical

The office has developed advanced technical skills related to, i) Construction Detailing, ii) Building Services and iii) Contract Administration of projects. Further, in working on projects abroad the office has had experience with multidisciplinary project teams made up of consultants from companies from various countries. office capable of detailed 3D analysis and presentation.

Why Choose us?

At SPACETEK, we are a globally recognized architectural firm, driven by the dynamic collaboration Willys Luvai and partners. Together, we share a powerful and distinctive vision that shapes everything we do.

- ✓ **Experience and Portfolio:** We have the experienced architects
- ✓ **Registered and qualified:** Our team of expert architects are registered verifiable members of the Board of registration of architects and quantity surveyors.
- ✓ **Customer Experience:** We ensure we walk with you the journey from the time you bring your idea to the time your furniture enters your property.
- ✓ **Trustable history:** We have built a reputation for reliability, transparency, and timely delivery, making us a dependable partner for both large-scale developments and bespoke private projects..

Our innovative and committed approach to design, documentation, and the execution of projects around the world has helped us build SPACETEK into an internationally sought-after brand. With projects on two continents, we have developed a deep understanding of the global role of design and how to deliver architecture in diverse and evolving markets. Our success is driven by a design philosophy that connects function with

form and reflects our pursuit of authentic, meaningful architectural solutions. We place a strong emphasis on creating maximum value, which has led to invitations to design and build prestigious projects worldwide. This philosophy is deeply rooted in a culture of curiosity and exploration that thrives among our team. It's this spirit that not only guides us but also helps us maintain our position as leading designers in a fast-paced, highly competitive industry.

As we expand globally, we continue to draw inspiration from the unique qualities of every city and context we work in—an influence clearly seen in our design approach.

We also stay at the forefront of technology in our field. We use the most advanced

design tools available to both explore our ideas and communicate them effectively to our clients. We're proud to be world leaders in Revit and to have developed our own virtual reality tools to enhance our design process.

”

"We are committed to delivering exceptional service, reflected in both the quality of our buildings and the care we provide to our clients, with an emphasis on high standards and refined elegance."
